

Remarks

The above Amendments and these Remarks are in reply to the Notice of Allowance and Fee(s) Due mailed 08/24/05, and the Examiner's Amendment attached thereto. As mentioned by the Examiner in the Examiner's Amendment, authorization for the examiner's amendment was given in a telephone interview on 8/18/05. However, it was also agreed that amendments were to be made to the specification to correct errors in the text, specifically the mislabeling of items in the detailed description.

It is submitted that no new matter is added by these amendments. Rather, errors of a nature that confuses readers by reading inconsistently with the Figures and the bulk of the detailed description describing such Figures are corrected. It is submitted that the corrected errors do not rise to a level such that one of ordinary skill in the art would be stymied by the teachings were the errors to be included.

In view of the above, it is respectfully requested that the Amendments set forth above be entered.

The Commissioner is hereby authorized to charge any deficiencies or credit overpayment to Deposit Account No. 06-1325. A duplicate copy of this authorization is enclosed.

Respectfully submitted,

Date: 11/9/05
